A Safe Place
for Women
and their
Children

Woman abuse is any action or behavior used to create fear and control over what you do.

With abuse, the abuser try's to have more power than those they are abusing. Abuse can take many forms; including sexual, physical, verbal, emotional, and financial.

Abuse can happen to any woman, regardless of her age, strength, income, education, sexual orientation or marital status.

All women and children deserve a life free of violence and abuse.

**Abuse hurts –
We can help.**

OUR VISION

Women and children will live in safety regardless of their circumstances, and our community will recognize and work to eliminate abuse and violence.
